'ELECTRONIC AMBIENT REMIXES TWO' is a 54 minute drifting ambient remix of Cosey's 1983 album TIME TO TELL.

This CD is released simultaneously with its sister work: the remastered Time To Tell album. A synthesis of sounds, a distillation, fragmentation and displacement of sound bites of significant events from Cosey's personal life, art actions, musical compositions and personal statements.

EAR TWO was originally commissioned by P.S.1 Gallery in New York for the recent Volume exhibition.
